

## **CRAN SETS THE RECORD STRAIGHT ON DEVICES ISSUED TO MEMBERS OF PARLIAMENT**

### **FOR IMMEDIATE RELEASE**

**29 JUNE 2018**

The Communications Regulatory Authority of Namibia (CRAN) herewith sets the record straight that the allegations circulating on social media alleging that CRAN has not type approved the devices recently issued to the members of parliament is false and therefore misleading.

In terms of section 80 of the Communications Act (No. 8 of 2009), CRAN issued type approval certification (**No. TA-2018/5359**) on 16 April 2018 to Huawei Telecommunications Technologies Namibia (Pty) Ltd for the specific devices issued to members of parliament recently.

Such information is public information and therefore can be verified/obtained at our offices.

The Authority continues to ensure type approval of all telecommunications devices sold in Namibia, to protect consumers and members of the public from harm, to ensure their safety and that such equipment does not interfere with electronic communications networks.

For further clarity or questions in this regard, please contact [legal@cran.na](mailto:legal@cran.na).
