

CRAN
Communications Regulatory Authority of Namibia

TO WHOM IT MAY CONCERN

The Communications Regulatory Authority of Namibia (CRAN) has been established since the 18th of May 2011, in terms of Communications Act No. 8 of 2009 (the Act).

In terms of section 80 of the Act, CRAN may prescribe equipment standards for telecommunications equipment. CRAN is currently in the process of drafting regulations in this regard.

Hence, CRAN is unable to issue Type Approval Certificates at present for telecommunications equipment or for any other equipment not classified as telecommunications equipment, until such time that final regulations for equipment standards have been published in a *Government Gazette*.

CRAN will issue the draft regulations for public comment on a date to be determined and will advise all stakeholders accordingly.

We thank you for your understanding in this regard.

Yours sincerely

STANLEY SHANAPINDA

CHIEF EXECUTIVE OFFICER

07 MAY 2012
